REASONS FOR ALLOWANCE

1. Claims 1-22 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claims 1, 20 and 21 have been amended to recite a focusing portion enabled to adjust a relative position between a light emitting diode and a reflector in a direction substantially parallel to the central axis of the reflector, and a supporting element arranged in front of the reflector for supporting the light emitting diode.

Claims 2-4, 6, 7, 14 and 22 are dependent on claim 1.

Claim 1 is allowable. The restriction requirement between the Species I through VI, as set forth in the Office action mailed on 2/22/2006 has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 5, 8-13, 15 and 16, directed to Species II through VI no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim. Claims 5, 8-13, 15 and 16 are allowable because of depending on claim 1.

Claims 17 and 19 have been amended to recite a light emitting diode being aimed substantially toward a reflector and light being emitted by the light emitting diode reflecting off of the reflector and past the light emitting diode, and a focusing portion enabled to adjust a relative position between a light emitting diode and a reflector in a direction substantially parallel to the central axis of the reflector.

Claim 18 has been amended to recite a light emitting diode arranged on the front side of a reflector and along a central axis of the reflector and directed substantially toward the reflector, and a focusing portion enabled to adjust a relative position between a light emitting diode and a reflector in a direction substantially parallel to the central axis of the reflector.

The limitations discussed above are neither disclosed nor suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. F. Leser [US 1,674,650] and Baloochi [US 5,171,086] disclose a flashlight having an adjustable lamp relative to a reflector.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bao Q. Truong whose telephone number is (571) 272-2383. The examiner can normally be reached on Monday-Friday (8:00 AM - 4:00 PM).
